

How might we enable early detection of dementia for older women in India so that symptoms are recognized early instead of being normalized as aging?

No.	Participant	Round	Idea Description	Desirable	Viable	Feasible	Responsible
1	Ishaan	1	Train ASHA workers to use a simple 3-minute memory screening tool during routine home visits.	✓	✓	✓	✓
2	Ishaan	1	Equip ASHA workers with visual flashcards depicting early dementia signs (e.g., forgetting recipes) to show families.	✓	✗	✓	✓
3	Ishaan	1	Integrate cognitive health questions into existing maternal/child health surveys conducted by ASHA workers.	✓	✗	✓	✓
4	Bhavya	1	Create a 'Grandma's Recipe Book' memory test where family members note if she forgets key steps in traditional dishes.	✓	✗	✓	✓
5	Bhavya	1	Develop a simple checklist for daughters-in-law to distinguish normal aging from dementia symptoms.	✓	✗	✓	✓
6	Bhavya	1	Encourage families to track changes in behavior during daily pooja (prayer) routines, such as forgetting mantras.	✓	✗	✓	✓
7	Yash	1	Launch a WhatsApp chatbot in regional languages that guides families through a basic cognitive assessment.	✓	✗	✓	✓
8	Yash	1	Develop a voice-analysis app that detects speech patterns associated with early dementia from phone calls.	✓	✗	✓	✓
9	Yash	1	Create a digital diary app for families to log unusual behaviors securely and share with a doctor.	✓	✗	✓	✓
10	Palak	1	Train temple priests to recognize signs of confusion or memory loss in elderly women attending daily prayers.	✓	✗	✓	✓
11	Palak	1	Set up memory screening camps at local religious festivals (e.g., Kumbh Mela, Diwali gatherings).	✓	✓	✓	✓
12	Palak	1	Incorporate messages about brain health and aging into spiritual discourses (satsangs) attended by older women.	✓	✗	✓	✓
13	Bushra	1	Broadcast radio dramas on All India Radio featuring a relatable older woman experiencing early dementia signs.	✓	✗	✓	✓
14	Bushra	1	Partner with popular regional TV soap operas to include a storyline about early dementia detection.	✓	✗	✓	✓
15	Bushra	1	Distribute informative pamphlets in local languages with the morning newspaper delivery.	✓	✗	✓	✓
16	Uddish	1	Mandate a brief cognitive screening for all women over 60 visiting primary health centers for any reason.	✓	✗	✓	✓
17	Uddish	1	Train local pharmacists to identify frequent repeat purchases or forgotten medications as a red flag.	✓	✗	✓	✓
18	Uddish	1	Establish a dedicated 'Senior Women's Health Helpline' for anonymous consultations about memory issues.	✓	✗	✓	✓
19	Ishaan	2	Have ASHA workers follow up with women flagged by pharmacists for medication mismanagement.	✓	✗	✓	✓
20	Ishaan	2	Equip primary health centers with culturally tailored memory tests, administered by ASHA workers in waiting areas.	✓	✗	✓	✓
21	Ishaan	2	Train ASHA workers to promote the 'Senior Women's Health Helpline' during their community rounds.	✓	✓	✓	✓
22	Bhavya	2	Encourage families to participate in the ASHA worker's 3-minute memory screening tool at home.	✓	✗	✓	✓
23	Bhavya	2	Have families discuss the ASHA worker's visual flashcards during evening tea time.	✓	✗	✓	✓
24	Bhavya	2	Families can use the cognitive health questions from ASHA surveys as a baseline for their own observations.	✓	✗	✓	✓
25	Yash	2	Digitize the 'Grandma's Recipe Book' memory test into an interactive tablet app for the family.	✓	✗	✓	✓
26	Yash	2	Integrate the daughter-in-law checklist into the WhatsApp chatbot for easy, regular tracking.	✓	✗	✓	✓
27	Yash	2	Use smart home sensors to monitor deviations in the daily pooja routine automatically.	✓	✗	✓	✓
28	Palak	2	Promote the WhatsApp chatbot during temple announcements for families to use at home.	✓	✗	✓	✓
29	Palak	2	Set up kiosks at religious festivals where attendees can try the voice-analysis app.	✓	✗	✓	✓

30	Palak	2	Encourage spiritual leaders to mention the digital diary app as a tool for family care.	✓	X	✓	✓
31	Bushra	2	Feature the temple screening camps in local news broadcasts to reduce stigma and increase participation.	✓	✓	✓	✓
32	Bushra	2	Create radio ads promoting the memory screening camps at upcoming religious festivals.	✓	X	✓	✓
33	Bushra	2	Have TV soap opera characters discuss the brain health messages they heard at a satsang.	✓	X	✓	✓
34	Uddish	2	Doctors at primary health centers can reference the radio dramas to explain symptoms to patients.	✓	X	✓	✓
35	Uddish	2	Clinics can play the TV soap opera episodes featuring dementia storylines in their waiting rooms.	✓	X	✓	✓
36	Uddish	2	Primary health centers can distribute the informative pamphlets alongside prescriptions.	✓	X	✓	✓
37	Ishaan	3	ASHA workers distribute the newspaper pamphlets directly to households without subscriptions.	✓	X	✓	✓
38	Ishaan	3	ASHA workers organize community listening groups for the radio dramas and facilitate discussions.	✓	X	✓	✓
39	Ishaan	3	ASHA workers use clips from the TV soap operas as educational tools during village meetings.	✓	X	✓	✓
40	Bhavya	3	Families can accompany older women to primary health centers to advocate for the mandated cognitive screening.	✓	X	✓	✓
41	Bhavya	3	Families can work with local pharmacists to set up a pill organizer system and monitor usage.	✓	✓	✓	✓
42	Bhavya	3	Families can save the 'Senior Women's Health Helpline' number on the older woman's phone.	✓	X	✓	✓
43	Yash	3	Develop a mobile app for ASHA workers to digitally record and track the results of the 3-minute memory screening.	✓	X	✓	✓
44	Yash	3	Create interactive, digital versions of the visual flashcards for ASHA workers to show on tablets.	✓	X	✓	✓
45	Yash	3	Use data analytics on the cognitive health survey results to identify high-risk areas for targeted interventions.	✓	X	✓	✓
46	Palak	3	Organize community cooking events at temples based on the 'Grandma's Recipe Book' to observe memory skills collectively.	✓	X	✓	✓
47	Palak	3	Host support groups for daughters-in-law at community centers to share experiences based on the checklist.	✓	X	✓	✓
48	Palak	3	Encourage collective prayer groups to gently check in on members who start missing the daily pooja.	✓	X	✓	✓
49	Bushra	3	Run targeted social media ads promoting the WhatsApp chatbot to younger family members.	✓	X	✓	✓
50	Bushra	3	Partner with tech influencers to review and explain the voice-analysis app on YouTube.	✓	X	✓	✓
51	Bushra	3	Publish articles in regional magazines about the benefits of using a digital diary for tracking elderly care.	✓	✓	✓	✓
52	Uddish	3	Doctors can collaborate with temple priests to refer individuals flagged during temple screenings for formal diagnosis.	✓	X	✓	✓
53	Uddish	3	Medical professionals can volunteer to conduct the screenings at the religious festival camps.	✓	X	✓	✓
54	Uddish	3	Primary health centers can host spiritual leaders to speak about the importance of medical care for aging brains.	✓	X	✓	✓
55	Ishaan	4	ASHA workers collaborate with temple priests to identify women who have stopped attending prayers.	✓	X	✓	✓
56	Ishaan	4	ASHA workers assist in organizing and running the memory screening camps at religious festivals.	✓	X	✓	✓
57	Ishaan	4	ASHA workers attend the spiritual discourses to answer medical questions after the brain health messages.	✓	X	✓	✓
58	Bhavya	4	Families discuss the radio dramas during dinner to normalize conversations about memory loss.	✓	X	✓	✓
59	Bhavya	4	Families watch the TV soap operas together and use the storyline to gently ask the older woman about her memory.	✓	X	✓	✓
60	Bhavya	4	Families read the informative pamphlets together and discuss any relatable symptoms.	✓	X	✓	✓
61	Yash	4	Integrate the primary health center's mandated cognitive screening results into a centralized electronic health record.	✓	✓	✓	✓
62	Yash	4	Develop an automated SMS alert system for pharmacists to notify families of missed medication refills.	✓	X	✓	✓

63	Yash	4	Create a telemedicine platform specifically for the 'Senior Women's Health Helpline' for remote video consultations.	✓	X	✓	✓
64	Palak	4	Temples host training sessions for ASHA workers on how to approach families respectfully about cognitive decline.	✓	X	✓	✓
65	Palak	4	Religious festivals feature booths where ASHA workers demonstrate the 3-minute memory screening tool.	✓	X	✓	✓
66	Palak	4	Spiritual leaders endorse the ASHA workers' cognitive health surveys during their sermons.	✓	X	✓	✓
67	Bushra	4	Create a reality TV segment featuring families using the 'Grandma's Recipe Book' memory test.	✓	X	✓	✓
68	Bushra	4	Publish a series of newspaper columns written from the perspective of a daughter-in-law using the checklist.	✓	X	✓	✓
69	Bushra	4	Produce a short documentary about families navigating dementia, highlighting the daily pooja routine changes.	✓	X	✓	✓
70	Uddish	4	Primary health centers promote the WhatsApp chatbot as a pre-screening tool before appointments.	✓	X	✓	✓
71	Uddish	4	Clinics use the voice-analysis app data as supplementary information during diagnostic evaluations.	✓	✓	✓	✓
72	Uddish	4	Doctors review the digital diary app logs with families during consultations to understand behavioral patterns.	✓	X	✓	✓
73	Ishaan	5	Train ASHA workers to help families install and use the digital diary app.	✓	X	✓	✓
74	Ishaan	5	ASHA workers use the voice-analysis app on their phones during conversations with elderly women to screen for issues.	✓	X	✓	✓
75	Ishaan	5	ASHA workers guide older women through the WhatsApp chatbot assessment during home visits.	✓	X	✓	✓
76	Bhavya	5	Families volunteer to help run the memory screening camps at local religious festivals.	✓	X	✓	✓
77	Bhavya	5	Families invite temple priests to their homes to speak with older women showing signs of confusion.	✓	X	✓	✓
78	Bhavya	5	Families share their experiences with dementia detection during community spiritual discourses.	✓	X	✓	✓
79	Yash	5	Develop an interactive web portal based on the informative pamphlets for broader access.	✓	X	✓	✓
80	Yash	5	Create a mobile game based on the TV soap opera storyline that educates users about dementia symptoms.	✓	X	✓	✓
81	Yash	5	Launch a podcast series expanding on the topics covered in the radio dramas.	✓	✓	✓	✓
82	Palak	5	Temples partner with primary health centers to offer free transportation to clinics for cognitive screenings.	✓	X	✓	✓
83	Palak	5	Religious organizations sponsor the training of local pharmacists in dementia recognition.	✓	X	✓	✓
84	Palak	5	Spiritual leaders publicly endorse the 'Senior Women's Health Helpline' as a valuable community resource.	✓	X	✓	✓
85	Bushra	5	Feature interviews with ASHA workers in local newspapers about their experiences with the 3-minute memory screening.	✓	X	✓	✓
86	Bushra	5	Create a social media campaign highlighting the visual flashcards used by ASHA workers.	✓	X	✓	✓
87	Bushra	5	Broadcast a radio segment discussing the findings of the cognitive health questions in maternal/child surveys.	✓	X	✓	✓
88	Uddish	5	Primary health centers incorporate the 'Grandma's Recipe Book' concept into their official screening protocols.	✓	X	✓	✓
89	Uddish	5	Clinics provide the daughter-in-law checklist as a standard handout for families of elderly patients.	✓	X	✓	✓
90	Uddish	5	Doctors ask specifically about changes in daily routines, like pooja, during routine checkups for older women.	✓	X	✓	✓
91	Ishaan	6	ASHA workers facilitate community workshops where families share their 'Grandma's Recipe Book' observations.	✓	✓	✓	✓
92	Ishaan	6	ASHA workers train daughters-in-law on how to effectively use the checklist and communicate findings to doctors.	✓	X	✓	✓
93	Ishaan	6	ASHA workers monitor changes in daily pooja routines during their regular neighborhood visits.	✓	X	✓	✓

94 Bhavya	6	Families use the electronic health record portal to track the progression of the older woman's cognitive health.	✓	X	✓	✓
95 Bhavya	6	Families set up the automated SMS alert system with their local pharmacist for medication management.	✓	X	✓	✓
96 Bhavya	6	Families utilize the telemedicine platform for follow-up appointments regarding memory concerns.	✓	X	✓	✓
97 Yash	6	Develop a specialized training module within the ASHA worker mobile app focused on cultural sensitivity and religious contexts.	✓	X	✓	✓
98 Yash	6	Create a digital map within the app showing the locations and dates of upcoming temple screening camps.	✓	X	✓	✓
99 Yash	6	Integrate spiritual wellness tips into the WhatsApp chatbot alongside cognitive exercises.	✓	X	✓	✓
100 Palak	6	Temples host viewings of the short documentary about families navigating dementia.	✓	X	✓	✓
101 Palak	6	Religious festivals distribute the newspaper columns written by daughters-in-law as educational material.	✓	X	✓	✓
102 Palak	6	Spiritual leaders participate in the reality TV segment to discuss the intersection of faith and cognitive health.	✓	X	✓	✓
103 Bushra	6	Create a public service announcement (PSA) featuring doctors explaining the importance of the mandated cognitive screening.	✓	X	✓	✓
104 Bushra	6	Run a billboard campaign highlighting the role of local pharmacists in early dementia detection.	✓	X	✓	✓
105 Bushra	6	Broadcast a televised panel discussion with medical experts about the 'Senior Women's Health Helpline'.	✓	X	✓	✓
106 Uddish	6	Primary health centers officially recognize the ASHA worker's 3-minute memory screening as a valid preliminary assessment.	✓	X	✓	✓
107 Uddish	6	Clinics integrate the ASHA worker's visual flashcards into their own patient education materials.	✓	X	✓	✓
108 Uddish	6	Doctors use the data from the ASHA worker's cognitive health surveys to inform community-wide health initiatives.	✓	X	✓	✓

How might we support elderly women with dementia in maintaining independence in daily routines so that they can live with dignity, confidence, and a better quality of life?

ID	Participant	Round	Idea Description	Desirable	Viable	Feasible	Responsible
1	Ishaan	1	Label kitchen cabinets with clear pictures of the contents to help her find utensils.	✓	✓	✓	✓
2	Ishaan	1	Use a pill organizer with large, color-coded compartments for morning and evening medications.	✗	✓	✓	✗
3	Ishaan	1	Install automatic shut-off devices on the stove to prevent fire hazards.	✓	✗	✗	✗
4	Bhavya	1	Place high-contrast colored tape on the edges of stairs to prevent falls.	✗	✓	✗	✓
5	Bhavya	1	Provide a simple, one-button radio pre-tuned to her favorite devotional songs.	✓	✗	✓	✗
6	Bhavya	1	Use a whiteboard in the kitchen to write down the day's schedule and meals.	✗	✓	✗	✗
7	Yash	1	Install grab bars in the bathroom and near the toilet for safe transfers.	✓	✗	✗	✗
8	Yash	1	Set up a smart speaker to give audio reminders for prayer times and meals.	✗	✓	✓	✓
9	Yash	1	Replace shoelaces with velcro straps or slip-on shoes for easier dressing.	✓	✗	✗	✗
10	Palak	1	Remove loose rugs and clutter from walkways to reduce tripping risks.	✗	✓	✗	✗
11	Palak	1	Keep a photo album of family members with names printed clearly on the coffee table.	✓	✗	✓	✗
12	Palak	1	Use a transparent kettle so she can easily see if there's water inside.	✓	✓	✓	✓
13	Bushra	1	Set up a simple digital clock that displays the time, day of the week, and date.	✓	✗	✗	✗
14	Bushra	1	Place a sturdy chair in the bathroom for her to sit while showering or drying off.	✗	✓	✓	✗
15	Bushra	1	Use contrasting colors for plates and food (e.g., dark food on a light plate) to make eating easier.	✓	✗	✗	✗
16	Uddish	1	Label hot and cold water taps with bright red and blue stickers.	✗	✓	✗	✓
17	Uddish	1	Provide clothing with elastic waistbands instead of buttons and zippers.	✓	✗	✓	✗
18	Uddish	1	Keep a nightlight on in the hallway and bathroom to guide her at night.	✗	✓	✗	✗
19	Ishaan	2	Create a 'memory box' near the front door with keys, glasses, and a purse.	✓	✗	✗	✗
20	Ishaan	2	Use a motion-sensor light in the bedroom that turns on when she gets out of bed.	✗	✓	✓	✓
21	Ishaan	2	Place a sign on the inside of the front door reminding her to lock it.	✓	✗	✗	✗
22	Bhavya	2	Record a family member's voice giving gentle instructions for using the washing machine.	✗	✓	✗	✗
23	Bhavya	2	Keep daily wear clothes laid out in the order they should be put on.	✓	✓	✓	✓
24	Bhavya	2	Use non-slip mats in the shower and bathroom floor.	✗	✓	✗	✓
25	Yash	2	Install a GPS tracker on her walking stick or in her shoes for safety during walks.	✓	✗	✗	✗
26	Yash	2	Create a simplified remote control for the TV with only power, volume, and channel buttons.	✗	✓	✓	✗
27	Yash	2	Put a stop sign on doors that lead to unsafe areas like the basement.	✓	✗	✗	✗
28	Palak	2	Label drawers with pictures of the clothing items inside (e.g., socks, shirts).	✗	✓	✗	✓
29	Palak	2	Keep her favorite tea and snacks in an easily accessible, designated spot on the counter.	✓	✗	✓	✗
30	Palak	2	Use a shower chair and a handheld showerhead for safer bathing.	✗	✓	✗	✗
31	Bushra	2	Set alarms on her phone for important daily tasks like drinking water.	✓	✗	✗	✗
32	Bushra	2	Replace glass cups with durable, lightweight plastic or bamboo cups.	✗	✓	✓	✓
33	Bushra	2	Keep emergency contact numbers written in large print next to the landline phone.	✓	✗	✗	✗
34	Uddish	2	Install an easy-to-use bidet attachment on the toilet for better hygiene independence.	✓	✓	✓	✓
35	Uddish	2	Use a contrasting toilet seat color so it stands out from the floor and bowl.	✓	✗	✓	✗
36	Uddish	2	Provide a lightweight, easy-to-push trolley for moving items around the house.	✗	✓	✗	✓
37	Ishaan	3	Place a large calendar on the wall and cross off days to help her track time.	✓	✗	✗	✗
38	Ishaan	3	Use a key finder device that beeps when she misplaces her house keys.	✗	✓	✓	✗
39	Ishaan	3	Install a video doorbell so she can see who is at the door without opening it.	✓	✗	✗	✗
40	Bhavya	3	Keep a basket of familiar, comforting items (like a favorite shawl) in the living room.	✗	✓	✗	✓
41	Bhavya	3	Use a pill dispenser that sounds an alarm and dispenses the right dose at the right time.	✓	✗	✓	✗
42	Bhavya	3	Put a bright sticker on the microwave's 'start' button to make it easy to find.	✗	✓	✗	✗
43	Yash	3	Set up an automatic pet feeder if she has a pet, so she doesn't forget to feed them.	✓	✗	✗	✗
44	Yash	3	Use a kettle that whistles loudly when the water is boiling.	✗	✓	✓	✓
45	Yash	3	Place a mat with a different texture in front of the kitchen sink to prevent slipping.	✓	✓	✓	✓
46	Palak	3	Create a 'safe walking path' in the garden with clear boundaries and no obstacles.	✗	✓	✗	✗
47	Palak	3	Use a telephone with large buttons and pictures of contacts for speed dialing.	✓	✗	✓	✗
48	Palak	3	Keep a small, easy-to-read thermometer in the house to help her dress appropriately for the weather.	✗	✓	✗	✓
49	Bushra	3	Install lever-style door handles which are easier to open than round knobs.	✓	✗	✗	✗
50	Bushra	3	Use a bed rail to help her get in and out of bed safely.	✗	✓	✓	✗
51	Bushra	3	Provide a long-handled shoehorn to help her put on shoes without bending over.	✓	✗	✗	✗
52	Uddish	3	Keep a list of simple, step-by-step instructions for making tea next to the stove.	✗	✓	✗	✓
53	Uddish	3	Use a brightly colored toothbrush so it's easy to spot on the bathroom counter.	✓	✗	✓	✗
54	Uddish	3	Place a non-slip tray on her lap for eating meals comfortably in her favorite chair.	✗	✓	✗	✗

55	Ishaan	4	Set up a digital photo frame that cycles through family pictures to spark memories.	✓	X	X	X
56	Ishaan	4	Use a specialized 'dementia clock' that clearly states Morning, Afternoon, or Night.	✓	✓	✓	✓
57	Ishaan	4	Keep a whistle on a lanyard around her neck in case she needs to call for help.	✓	X	X	X
58	Bhavya	4	Install a smart lock on the front door that can be controlled remotely by family members.	X	✓	X	X
59	Bhavya	4	Use a weighted blanket to help her sleep better at night.	✓	X	✓	X
60	Bhavya	4	Provide a set of easy-to-hold, chunky utensils for eating.	X	✓	X	✓
61	Yash	4	Create a personalized music playlist of her favorite old songs to improve mood and cognition.	✓	X	X	X
62	Yash	4	Keep a magnifying glass with a built-in light near her reading chair.	X	✓	✓	X
63	Yash	4	Use a brightly colored laundry basket so she knows where to put dirty clothes.	✓	X	X	X
64	Palak	4	Install a raised toilet seat to make it easier for her to sit and stand.	X	✓	X	✓
65	Palak	4	Keep a small whiteboard on the fridge for her to write down grocery needs.	✓	X	✓	X
66	Palak	4	Use a specialized mug with two handles and a wide base to prevent spills.	X	✓	X	X
67	Bushra	4	Set up a 'memory station' with items from her past (e.g., old sewing kit, old photos).	✓	✓	✓	✓
68	Bushra	4	Provide a simple, easy-to-use coffee pod machine instead of a traditional coffee maker.	X	✓	✓	✓
69	Bushra	4	Keep a bright, easily identifiable umbrella near the door for rainy days.	✓	X	X	X
70	Uddish	4	Install a sensor mat next to the bed that alerts a caregiver if she gets up at night.	X	✓	X	X
71	Uddish	4	Use a pill crusher or splitter if she has trouble swallowing large pills.	✓	X	✓	X
72	Uddish	4	Keep a sturdy step stool with a handrail in the kitchen for reaching higher shelves.	X	✓	X	✓
73	Ishaan	5	Create a customized picture book of her daily routine to help her remember what to do next.	✓	X	X	X
74	Ishaan	5	Use a smart thermostat that automatically adjusts the temperature to a comfortable level.	X	✓	✓	X
75	Ishaan	5	Provide a set of 'fidget' tools or sensory blankets to keep her hands busy and reduce anxiety.	✓	X	X	X
76	Bhavya	5	Install a simple, one-touch emergency call button in the bathroom and bedroom.	X	✓	X	✓
77	Bhavya	5	Keep a set of duplicate keys hidden outside in case she locks herself out.	✓	X	✓	X
78	Bhavya	5	Use a brightly colored bath mat to help her distinguish the tub from the floor.	✓	✓	✓	✓
79	Yash	5	Set up a daily delivery service for fresh meals so she doesn't have to cook.	✓	X	X	X
80	Yash	5	Provide a specialized 'dementia-friendly' phone that only receives calls from approved numbers.	X	✓	✓	✓
81	Yash	5	Keep a small, easy-to-care-for indoor plant to give her a sense of purpose and routine.	✓	X	X	X
82	Palak	5	Install a handheld vacuum cleaner mounted on the wall for easy, lightweight cleaning.	X	✓	X	X
83	Palak	5	Use a shower dispenser with push-buttons for soap and shampoo to avoid dropping bottles.	✓	X	✓	X
84	Palak	5	Keep a set of large-print playing cards or simple puzzles on the coffee table.	X	✓	X	✓
85	Bushra	5	Set up a 'smart plug' on the iron or hair dryer that automatically turns off after 10 minutes.	✓	X	X	X
86	Bushra	5	Provide a comfortable, supportive pair of indoor slippers with good grip.	X	✓	✓	X
87	Bushra	5	Keep a brightly colored, easy-to-read measuring cup in the kitchen.	✓	X	X	X
88	Uddish	5	Install a small, easy-to-reach shelf in the shower for her soap and sponge.	X	✓	X	✓
89	Uddish	5	Use a specialized 'spill-proof' cup with a lid and straw for drinking throughout the day.	✓	✓	✓	✓
90	Uddish	5	Keep a clear, plastic bin in the fridge with her favorite snacks easily visible.	X	✓	X	X
91	Ishaan	6	Create a personalized 'life story' book to help caregivers understand her background and preferences.	✓	X	X	X
92	Ishaan	6	Use a smart lighting system that slowly brightens in the morning to help her wake up naturally.	X	✓	✓	✓
93	Ishaan	6	Provide a set of easy-to-use, pre-threaded sewing needles if she enjoys mending clothes.	✓	X	X	X
94	Bhavya	6	Install a simple, pull-cord alarm system in the bathroom for emergencies.	X	✓	X	X
95	Bhavya	6	Keep a small, portable fan on her nightstand for hot nights.	✓	X	✓	X
96	Bhavya	6	Use a brightly colored, non-slip placemat under her plate to define her eating space.	X	✓	X	✓
97	Yash	6	Set up a subscription for her favorite magazines or newspapers in large print.	✓	X	X	X
98	Yash	6	Provide a specialized 'dementia-friendly' radio with only one button for her favorite station.	X	✓	✓	X
99	Yash	6	Keep a small, easy-to-use watering can near her indoor plants.	✓	X	X	X
100	Palak	6	Install a 'smart mirror' in the bathroom that displays the date, time, and weather.	✓	✓	✓	✓
101	Palak	6	Use a specialized 'dementia-friendly' clock that projects the time onto the ceiling at night.	✓	X	✓	X
102	Palak	6	Keep a set of simple, pre-cut vegetables in the fridge for easy snacking or cooking.	X	✓	X	X
103	Bushra	6	Set up a 'smart display' in the kitchen for video calls with family members.	✓	X	X	X
104	Bushra	6	Provide a comfortable, easy-to-clean armchair with good back support.	X	✓	✓	✓
105	Bushra	6	Keep a brightly colored, easy-to-read wall thermometer in the living room.	✓	X	X	X
106	Uddish	6	Install a simple, easy-to-use water filter on the kitchen tap.	X	✓	X	X
107	Uddish	6	Use a specialized 'dementia-friendly' remote control with large, tactile buttons.	✓	X	✓	X
108	Uddish	6	Keep a small, easy-to-read digital scale in the bathroom for monitoring her weight.	X	✓	X	✓

How might we reduce the caregiving burden on families while ensuring quality care for dementia patients so that both caregivers and patients experience better well-being and support?

How might we create safe home and community environments for dementia patients so that wandering and accidents can be prevented while ensuring their safety and independence?

ID	Participant	Round	Idea Description	Desirable	Viable	Feasible	Responsible
1	Ishaan	1	Install smart locks on all exterior doors that require a code or fingerprint, preventing easy exit without supervision.	✓	✓	✓	✓
2	Ishaan	1	Use motion sensors near beds and doors that trigger an alert to caregivers' smartphones if movement is detected at night.	✗	✓	✓	✗
3	Ishaan	1	Place camouflage decals or curtains over exit doors to make them blend in with the surrounding walls and less noticeable.	✓	✗	✗	✗
4	Bhavya	1	Install GPS tracking devices in the patient's shoes or clothing to quickly locate them if they do wander outside the home.	✗	✓	✗	✓
5	Bhavya	1	Set up a secure, enclosed outdoor garden area where the patient can safely walk and enjoy nature without the risk of wandering off.	✓	✗	✓	✗
6	Bhavya	1	Remove tripping hazards such as loose rugs, clutter, and electrical cords from all walkways to prevent accidental falls.	✗	✓	✗	✗
7	Yash	1	Use contrasting colors for furniture and flooring to help patients better distinguish boundaries and navigate the space safely.	✓	✗	✗	✗
8	Yash	1	Install bright, motion-activated nightlights in hallways and bathrooms to provide clear visibility during nighttime bathroom trips.	✗	✓	✓	✓
9	Yash	1	Place "Stop" or "Do Not Enter" signs on doors leading to unsafe areas like basements, garages, or outside exits.	✓	✗	✗	✗
10	Palak	1	Ensure all hazardous materials, medications, and sharp objects are locked securely in cabinets out of reach and sight.	✗	✓	✗	✗
11	Palak	1	Install grab bars and non-slip mats in the bathroom and shower to provide stability and reduce the risk of slipping.	✓	✗	✓	✗
12	Palak	1	Use childproof covers on stove knobs and electrical outlets to prevent accidental burns or electrical shocks.	✓	✓	✓	✓
13	Bushra	1	Create a daily routine with engaging activities to reduce restlessness and the desire to wander due to boredom or anxiety.	✓	✗	✗	✗
14	Bushra	1	Keep recent photographs and identification information handy in case the patient gets lost and needs to be identified by authorities.	✗	✓	✓	✗
15	Bushra	1	Notify neighbors and local police about the patient's condition so they can be on the lookout and assist if needed.	✓	✗	✗	✗
16	Uddish	1	Use a bed alarm that sounds when the patient attempts to get up without assistance, alerting caregivers immediately.	✗	✓	✗	✓
17	Uddish	1	Install window restrictors or locks to prevent windows from being opened wide enough for a person to climb out.	✓	✗	✓	✗
18	Uddish	1	Provide a comfortable, designated seating area near a window so the patient can look outside without feeling the need to leave.	✗	✓	✗	✗
19	Ishaan	2	Integrate the smart locks with a home automation system that also turns on lights when a door is unlocked during specific hours.	✓	✗	✗	✗
20	Ishaan	2	Combine motion sensors with a voice recording of a familiar family member gently reminding the patient to return to bed.	✗	✓	✓	✓
21	Ishaan	2	Paint the exit doors the exact same color as the walls and remove any prominent hardware to further conceal them.	✓	✗	✗	✗
22	Bhavya	2	Upgrade GPS trackers to include a geofencing feature that alerts caregivers instantly if the patient leaves a designated safe zone.	✗	✓	✗	✗
23	Bhavya	2	Add sensory elements like a water feature or fragrant plants to the enclosed garden to provide a calming environment.	✓	✓	✓	✓
24	Bhavya	2	Securely tape down the edges of any remaining rugs and ensure all transitions between different flooring types are smooth.	✗	✓	✗	✓
25	Yash	2	Use brightly colored tape to outline the edges of steps and changes in floor elevation to prevent missteps and falls.	✓	✗	✗	✗
26	Yash	2	Install a lighting system that mimics natural daylight patterns to help regulate the patient's circadian rhythm and improve sleep.	✗	✓	✓	✗
27	Yash	2	Replace standard doorknobs on restricted doors with childproof covers that are difficult for patients with dementia to operate.	✓	✗	✗	✗
28	Palak	2	Store cleaning supplies in a locked cabinet in the garage rather than under the sink to ensure they are completely inaccessible.	✗	✓	✗	✓
29	Palak	2	Replace a traditional bathtub with a walk-in shower featuring a built-in seat and a handheld showerhead for easier, safer bathing.	✓	✗	✓	✗
30	Palak	2	Install an automatic shut-off device on the stove that cuts power if no movement is detected in the kitchen for a certain period.	✗	✓	✗	✗

31	Bushra	2	Incorporate physical exercise into the daily routine to help tire the patient out and promote better sleep at night.	✓	X	X	X
32	Bushra	2	Register the patient with a national wandering response service like the Alzheimer's Association Safe Return program.	X	✓	✓	✓
33	Bushra	2	Organize a neighborhood watch specifically focused on looking out for vulnerable elderly residents who might wander.	✓	X	X	X
34	Uddish	2	Use a pressure-sensitive floor mat next to the bed instead of a bed alarm, which might be less startling for the patient.	✓	✓	✓	✓
35	Uddish	2	Apply shatterproof film to all accessible windows to prevent injury if the patient attempts to break the glass to exit.	✓	X	✓	X
36	Uddish	2	Create an indoor walking path that loops continuously through the house, providing a safe outlet for the urge to wander.	X	✓	X	✓
37	Ishaan	3	Program the smart home system to play soft, calming music if the motion sensors detect pacing in the middle of the night.	✓	X	X	X
38	Ishaan	3	Use a two-way audio camera system so caregivers can speak to and reassure the patient remotely if they get out of bed.	X	✓	✓	X
39	Ishaan	3	Hang a large, distracting piece of artwork or a mirror on the wall next to the disguised exit door to draw attention away from it.	✓	X	X	X
40	Bhavya	3	Use a wearable GPS device disguised as a standard wristwatch, making the patient less likely to remove it.	X	✓	X	✓
41	Bhavya	3	Install a sturdy, high fence around the garden with a gate lock that requires a complex sequence to open.	✓	X	✓	X
42	Bhavya	3	Ensure all rooms have adequate, glare-free lighting to minimize shadows that might cause confusion or fear.	X	✓	X	X
43	Yash	3	Paint the toilet seat a contrasting color to the bowl and floor to help the patient locate it easily and prevent accidents.	✓	X	X	X
44	Yash	3	Use a smart lighting system that slowly dims in the evening to signal that it is time to wind down and prepare for sleep.	X	✓	✓	✓
45	Yash	3	Hang a curtain over restricted doors and place a familiar piece of furniture in front of it to block access completely.	✓	✓	✓	✓
46	Palak	3	Keep only a few days' worth of necessary medications in a locked daily pill dispenser, storing the rest in a secure safe.	X	✓	X	X
47	Palak	3	Install a raised toilet seat with armrests to make it easier for the patient to sit down and stand up safely.	✓	X	✓	X
48	Palak	3	Remove the knobs from the stove entirely when not in use, keeping them in a hidden location.	X	✓	X	✓
49	Bushra	3	Engage the patient in meaningful tasks like folding laundry or sorting objects to give them a sense of purpose and reduce wandering.	✓	X	X	X
50	Bushra	3	Sew identification labels with the patient's name and caregiver's contact information into all of their clothing.	X	✓	✓	X
51	Bushra	3	Provide local police with a recent photo, medical information, and a list of places the patient might try to go.	✓	X	X	X
52	Uddish	3	Place a wireless call button within easy reach of the bed so the patient can easily summon help without trying to get up.	X	✓	X	✓
53	Uddish	3	Install window alarms that emit a loud chime if a window is opened, alerting anyone in the house.	✓	X	✓	X
54	Uddish	3	Set up "rummage boxes" filled with safe, interesting items for the patient to explore, satisfying their curiosity and keeping them occupied.	X	✓	X	X
55	Ishaan	4	Install a chime on all exterior doors that sounds whenever the door is opened, providing an audible alert during the day.	✓	X	X	X
56	Ishaan	4	Use a smart mattress pad that tracks sleep patterns and alerts caregivers to prolonged periods of wakefulness or restlessness.	✓	✓	✓	✓
57	Ishaan	4	Place a large black mat in front of the exit door; patients with dementia often perceive this as a hole and will avoid stepping on it.	✓	X	X	X
58	Bhavya	4	Attach a small Bluetooth tracker to the patient's keys or wallet if they insist on carrying them, aiding in quick location within the home.	X	✓	X	X
59	Bhavya	4	Create a designated "bus stop" or waiting area in the garden to provide a familiar setting for patients who think they need to leave for work.	✓	X	✓	X
60	Bhavya	4	Install handrails along both sides of all staircases and ensure the stairs are well-lit and free of clutter.	X	✓	X	✓
61	Yash	4	Remove mirrors or cover them if they cause distress or if the patient doesn't recognize their own reflection and thinks a stranger is in the house.	✓	X	X	X
62	Yash	4	Use nightlights that project a soft, calming image onto the ceiling to help soothe the patient back to sleep if they wake up.	X	✓	✓	X
63	Yash	4	Install a specialized lock on the inside of the front door that is positioned very high or very low, out of the patient's normal line of sight.	✓	X	X	X
64	Palak	4	Store all car keys in a locked lockbox to prevent the patient from attempting to drive, which is extremely dangerous.	X	✓	X	✓

65	Palak	4	Use brightly colored, non-slip tape on the bottom of the bathtub or shower to clearly mark the safe standing area.	✓	✗	✓	✗
66	Palak	4	Unplug small appliances like toasters and coffee makers when not in use and store them out of sight to prevent inappropriate use.	✗	✓	✗	✗
67	Bushra	4	Hire a professional companion or caregiver to provide supervision and engagement during times when family members are unavailable.	✓	✓	✓	✓
68	Bushra	4	Create a medical ID bracelet that includes the phrase "Memory Impaired" along with emergency contact numbers.	✗	✓	✓	✓
69	Bushra	4	Encourage neighbors to introduce themselves to the patient so they become familiar faces and can more easily recognize if the patient is lost.	✓	✗	✗	✗
70	Uddish	4	Keep the bedroom completely dark and quiet at night, using blackout curtains and a white noise machine to promote uninterrupted sleep.	✗	✓	✗	✗
71	Uddish	4	Replace glass in low windows with safety glass or plexiglass to prevent shattering if the patient leans or falls against it.	✓	✗	✓	✗
72	Uddish	4	Designate a specific drawer in the kitchen with safe utensils and non-perishable snacks that the patient can freely access.	✗	✓	✗	✓
73	Ishaan	5	Use a delayed-egress magnetic lock on the front door that sounds an alarm for 15 seconds before releasing, giving caregivers time to respond.	✓	✗	✗	✗
74	Ishaan	5	Install a video doorbell that allows caregivers to monitor who is entering or leaving the house from their smartphone.	✗	✓	✓	✗
75	Ishaan	5	Paint a mural of a bookshelf or a landscape on the exit door to completely disguise its function.	✓	✗	✗	✗
76	Bhavya	5	Use a tracking device that provides continuous real-time location updates rather than just periodic pings for greater accuracy.	✗	✓	✗	✓
77	Bhavya	5	Ensure the garden has clear, circular paths that lead back to the house, preventing the patient from encountering dead ends and getting frustrated.	✓	✗	✓	✗
78	Bhavya	5	Secure tall furniture like bookcases and dressers to the wall to prevent them from tipping over if the patient uses them for support.	✓	✓	✓	✓
79	Yash	5	Keep the environment quiet and minimize background noise from the TV or radio, which can cause confusion and agitation.	✓	✗	✗	✗
80	Yash	5	Use a smart plug to automatically turn off a bedside lamp after a certain time, signaling that it's time to sleep.	✗	✓	✓	✓
81	Yash	5	Install a Dutch door for the kitchen, allowing caregivers to keep the bottom half closed to restrict access while still being able to see and hear the patient.	✓	✗	✗	✗
82	Palak	5	Remove toxic plants from the home and garden, as patients with dementia may try to eat them.	✗	✓	✗	✗
83	Palak	5	Install an anti-scald valve on the water heater to ensure the water temperature never exceeds a safe level, preventing burns.	✓	✗	✓	✗
84	Palak	5	Keep the refrigerator organized and remove spoiled food regularly to prevent the patient from eating something unsafe.	✗	✓	✗	✓
85	Bushra	5	Enroll the patient in an adult day care program to provide socialization, structured activities, and a safe environment during the day.	✓	✗	✗	✗
86	Bushra	5	Keep a piece of unwashed clothing belonging to the patient in a sealed plastic bag to aid tracking dogs in case of a severe wandering incident.	✗	✓	✓	✗
87	Bushra	5	Organize a community awareness session about dementia and wandering to educate local businesses and residents on how to help.	✓	✗	✗	✗
88	Uddish	5	Use a bed tent or enclosure for patients who are at high risk of falling out of bed or wandering at night, providing a safe, enclosed space.	✗	✓	✗	✓
89	Uddish	5	Ensure all exterior doors have solid core construction to prevent the patient from breaking through them.	✓	✓	✓	✓
90	Uddish	5	Provide a variety of safe, tactile objects like a soft blanket, a smooth stone, or a squishy ball for the patient to hold and fidget with.	✗	✓	✗	✗
91	Ishaan	6	Integrate all smart home safety features into a single, easy-to-use app for the primary caregiver to manage effortlessly.	✓	✗	✗	✗
92	Ishaan	6	Use a smart speaker to play a pre-recorded message from a loved one when the front door is opened, asking the patient to wait inside.	✗	✓	✓	✓
93	Ishaan	6	Install a sliding barn door over the main exit that blends in with the wall paneling, making it difficult for the patient to recognize as a door.	✓	✗	✗	✗
94	Bhavya	6	Choose a GPS tracker with a long battery life and set up automatic low-battery alerts to ensure it is always functional.	✗	✓	✗	✗
95	Bhavya	6	Plant dense, non-thorny shrubs along the inside of the garden fence to create a natural barrier and soften the look of the enclosure.	✓	✗	✓	✗
96	Bhavya	6	Pad the sharp corners of furniture and countertops to reduce the severity of injuries if the patient falls or bumps into them.	✗	✓	✗	✓
97	Yash	6	Keep the layout of the furniture consistent; avoid rearranging rooms, as this can cause disorientation and increase the risk of falls.	✓	✗	✗	✗
98	Yash	6	Use a digital clock that clearly displays the time of day (morning, afternoon, evening) to help orient the patient.	✗	✓	✓	✗

99	Yash	6	Install a simple slide bolt lock high up on the door to the basement or garage, out of the patient's reach and line of sight.	✓	✗	✗	✗
100	Palak	6	Lock away all alcohol and mouthwash, as patients may consume them inappropriately or in dangerous quantities.	✓	✓	✓	✓
101	Palak	6	Use a brightly colored bath mat outside the shower to provide a clear visual cue of where to step safely.	✓	✗	✓	✗
102	Palak	6	Install safety covers on the garbage disposal switch to prevent accidental activation.	✗	✓	✗	✗
103	Bushra	6	Create a "calming room" with soft lighting, soothing music, and comfortable seating where the patient can go if they feel overwhelmed.	✓	✗	✗	✗
104	Bushra	6	Ensure the patient has a current, easily accessible medical evaluation to rule out physical causes for wandering, such as pain or infection.	✗	✓	✓	✓
105	Bushra	6	Work with local law enforcement to create a "Project Lifesaver" profile, which provides them with specific details and tracking equipment for the patient.	✓	✗	✗	✗
106	Uddish	6	Use a specialized mattress with raised edges to provide a gentle physical reminder of the bed's boundaries and prevent rolling out.	✗	✓	✗	✗
107	Uddish	6	Install reinforced glass in exterior doors to prevent the patient from breaking the glass and unlocking the door from the inside.	✓	✗	✓	✗
108	Uddish	6	Keep a basket of familiar, comforting items like family photos, a favorite book, or a stuffed animal in the living room to provide reassurance and distraction.	✗	✓	✗	✓

How might we improve awareness and reduce stigma around dementia in Indian communities so that people seek timely support, diagnosis, and compassionate care?

ID	Participant	Round	Idea Description	Desirable	Viable	Feasible	Responsible
1	Ishaan	1	Conduct street plays (Nukkad Natak) in local neighborhoods to explain dementia simply.	✓	✓	✓	✓
2	Ishaan	1	Distribute pamphlets in regional languages explaining early signs of dementia at local grocery stores.	✗	✓	✓	✗
3	Ishaan	1	Broadcast short, informative messages on local radio stations about memory loss vs normal aging.	✓	✗	✗	✗
4	Bhavya	1	Partner with ASHA workers to include dementia screening questions during their routine household visits.	✗	✓	✗	✓
5	Bhavya	1	Set up informational kiosks at local community centers or panchayat offices.	✓	✗	✓	✗
6	Bhavya	1	Create a simple comic book explaining dementia for children to read with their grandparents.	✗	✓	✗	✗
7	Yash	1	Organize awareness talks at local religious centers (temples, mosques, gurdwaras) after weekly gatherings.	✓	✗	✗	✗
8	Yash	1	Use local cable TV channels to run a ticker with dementia facts and helpline numbers.	✗	✓	✓	✓
9	Yash	1	Train local pharmacists to identify early signs and provide informational leaflets to families.	✓	✗	✗	✗
10	Palak	1	Host free memory check-up camps in association with local rotary clubs or NGOs.	✗	✓	✗	✗
11	Palak	1	Introduce dementia awareness modules in school curriculums to educate the younger generation.	✓	✗	✓	✗
12	Palak	1	Create short WhatsApp forward videos debunking common myths about dementia.	✓	✓	✓	✓
13	Bushra	1	Partner with local milk delivery services to print short dementia facts on milk packets.	✓	✗	✗	✗
14	Bushra	1	Organize 'Walk for Memories' events in public parks to spark conversations.	✗	✓	✓	✗
15	Bushra	1	Paint informative murals on public walls detailing the symptoms of dementia.	✓	✗	✗	✗
16	Uddish	1	Start a toll-free regional language helpline for families seeking basic information.	✗	✓	✗	✓
17	Uddish	1	Engage local influencers to talk about their experiences with aging family members.	✓	✗	✓	✗
18	Uddish	1	Conduct awareness sessions for local police to help them identify and assist wandering dementia patients.	✗	✓	✗	✗
19	Ishaan	2	Develop a simple mobile app that gamifies memory exercises for seniors.	✓	✗	✗	✗
20	Ishaan	2	Create a network of 'Dementia Friends' in neighborhoods who are trained to assist.	✗	✓	✓	✓
21	Ishaan	2	Organize support groups for caregivers to share their experiences and reduce isolation.	✓	✗	✗	✗
22	Bhavya	2	Train bank tellers and post office staff to assist elderly customers who might be confused.	✗	✓	✗	✗
23	Bhavya	2	Start a 'Memory Cafe' concept in local tea stalls where families can gather without judgment.	✓	✓	✓	✓
24	Bhavya	2	Provide subsidized GPS tracking bracelets for patients prone to wandering.	✗	✓	✗	✓
25	Yash	2	Launch a podcast series featuring stories of caregivers and medical professionals.	✓	✗	✗	✗
26	Yash	2	Create an online directory of verified dementia-friendly services in the city.	✗	✓	✓	✗
27	Yash	2	Organize art and music therapy workshops specifically designed for dementia patients.	✓	✗	✗	✗
28	Palak	2	Develop a standardized 'Dementia Care Kit' with activity books and safety guidelines for families.	✗	✓	✗	✓
29	Palak	2	Partner with public transport authorities to reserve specific seats for cognitive impairment.	✓	✗	✓	✗
30	Palak	2	Start a 'Buddy System' pairing college students with early-stage dementia patients for weekly chats.	✗	✓	✗	✗
31	Bushra	2	Create a specialized training program for domestic helps to handle dementia patients compassionately.	✓	✗	✗	✗
32	Bushra	2	Introduce a subsidized adult diaper program to ease the financial burden on families.	✗	✓	✓	✓
33	Bushra	2	Organize community cooking classes focusing on brain-healthy traditional Indian recipes.	✓	✗	✗	✗
34	Uddish	2	Set up an SMS alert system for neighborhoods when a dementia patient goes missing.	✓	✓	✓	✓
35	Uddish	2	Develop a VR experience for family members to understand what dementia feels like.	✓	✗	✓	✗

36	Uddish	2	Partner with local gyms to offer free light exercise classes for seniors to promote brain health.	X	✓	X	✓
37	Ishaan	3	Sensitize general practitioners (GPs) to not dismiss memory loss as 'just old age'.	✓	X	X	X
38	Ishaan	3	Create mobile diagnostic clinics that visit rural areas for cognitive assessments.	X	✓	✓	X
39	Ishaan	3	Offer tax benefits or financial subsidies for families employing full-time caregivers.	✓	X	X	X
40	Bhavya	3	Integrate dementia care training into the curriculum of nursing and medical schools.	X	✓	X	✓
41	Bhavya	3	Establish dedicated dementia wards in government hospitals with specialized staff.	✓	X	✓	X
42	Bhavya	3	Provide free tele-counseling services for caregivers dealing with burnout.	X	✓	X	X
43	Yash	3	Partner with health insurance companies to cover dementia care and rehabilitation.	✓	X	X	X
44	Yash	3	Create a certification program for 'Dementia-Friendly' businesses and public spaces.	X	✓	✓	✓

84	Palak	5	Mandate cognitive health warnings on products that contribute to vascular risks (like tobacco).	✗	✓	✗	✓
85	Bushra	5	Establish a national brain bank to facilitate research on dementia in the Indian population.	✓	✗	✗	✗
86	Bushra	5	Create a government-backed insurance scheme specifically for long-term care needs.	✗	✓	✓	✗
87	Bushra	5	Introduce flexible working hours for employees who are primary caregivers for dementia patients.	✓	✗	✗	✗
88	Uddish	5	Subsidize the cost of adult day care services for families below the poverty line.	✗	✓	✗	✓
89	Uddish	5	Create a specialized police task force trained in locating and assisting missing seniors.	✓	✓	✓	✓
90	Uddish	5	Mandate that all public transport staff undergo basic dementia sensitization training.	✗	✓	✗	✗
91	Ishaan	6	Develop AI-driven diagnostic tools that can detect early signs of dementia from speech patterns.	✓	✗	✗	✗
92	Ishaan	6	Create a national database of clinical trials accessible to patients seeking new treatments.	✗	✓	✓	✓
93	Ishaan	6	Partner with smartwatch companies to monitor vital signs and detect wandering automatically.	✓	✗	✗	✗
94	Bhavya	6	Invest in research on the impact of traditional Indian diets (like turmeric) on brain health.	✗	✓	✗	✗
95	Bhavya	6	Develop personalized music therapy playlists using AI based on a patient's cultural background.	✓	✗	✓	✗
96	Bhavya	6	Create virtual reality environments of 1970s/80s India for reminiscence therapy.	✗	✓	✗	✓
97	Yash	6	Establish community gardens designed specifically for the sensory stimulation of patients.	✓	✗	✗	✗
98	Yash	6	Partner with tech startups to develop affordable robotic pets for companionship.	✗	✓	✓	✗
99	Yash	6	Create an online platform connecting families with verified, trained freelance caregivers.	✓	✗	✗	✗
100	Palak	6	Develop a gamified cognitive assessment tool that can be administered via a smartphone.	✓	✓	✓	✓
101	Palak	6	Invest in public awareness campaigns targeting the younger generation to adopt brain-healthy habits early.	✓	✗	✓	✗
102	Palak	6	Create a centralized portal for families to donate medical equipment (like wheelchairs) after use.	✗	✓	✗	✗
103	Bushra	6	Establish a national 'Dementia Innovation Fund' to support startups in the eldercare space.	✓	✗	✗	✗
104	Bushra	6	Partner with grocery delivery services to offer specialized, easy-to-prepare meal kits for seniors.	✗	✓	✓	✓
105	Bushra	6	Develop a standardized 'End of Life' care protocol for advanced dementia patients.	✓	✗	✗	✗
106	Uddish	6	Create a digital memory book app where families can easily upload photos and audio clips.	✗	✓	✗	✗
107	Uddish	6	Establish an annual national conference bringing together researchers, policymakers, and caregivers.	✓	✗	✓	✗
108	Uddish	6	Launch a nationwide campaign to change the vocabulary around dementia, replacing stigmatizing words with empathetic ones.	✗	✓	✗	✓

Highlighted Idea Descriptions
Train ASHA workers to use a simple 3-minute memory screening tool during routine home visits.
Set up memory screening camps at local religious festivals (e.g., Kumbh Mela, Diwali gatherings).
Train ASHA workers to promote the 'Senior Women's Health Helpline' during their community rounds.
Feature the temple screening camps in local news broadcasts to reduce stigma and increase participation.
Families can work with local pharmacists to set up a pill organizer system and monitor usage.
Publish articles in regional magazines about the benefits of using a digital diary for tracking elderly care.
Integrate the primary health center's mandated cognitive screening results into a centralized electronic health record.
Clinics use the voice-analysis app data as supplementary information during diagnostic evaluations.
Launch a podcast series expanding on the topics covered in the radio dramas.
ASHA workers facilitate community workshops where families share their 'Grandma's Recipe Book' observations.
Label kitchen cabinets with clear pictures of the contents to help her find utensils.
Use a transparent kettle so she can easily see if there's water inside.
Keep daily wear clothes laid out in the order they should be put on.
Install an easy-to-use bidet attachment on the toilet for better hygiene independence.
Place a mat with a different texture in front of the kitchen sink to prevent slipping.
Use a specialized 'dementia clock' that clearly states Morning, Afternoon, or Night.
Set up a 'memory station' with items from her past (e.g., old sewing kit, old photos).
Use a brightly colored bath mat to help her distinguish the tub from the floor.
Use a specialized 'spill-proof' cup with a lid and straw for drinking throughout the day.
Install a 'smart mirror' in the bathroom that displays the date, time, and weather.
Mobile app for medication reminders
Biometric health monitoring
Public awareness campaigns
Discounted meal delivery services
Vision and hearing screenings
Yoga and exercise for patients
Safe-return ID jewelry
Cooking classes for caregivers
Laundry and cleaning assistance

Mobile sensory rooms
Install smart locks on all exterior doors that require a code or fingerprint, preventing easy exit without supervision.
Use childproof covers on stove knobs and electrical outlets to prevent accidental burns or electrical shocks.
Add sensory elements like a water feature or fragrant plants to the enclosed garden to provide a calming environment.
Use a pressure-sensitive floor mat next to the bed instead of a bed alarm, which might be less startling for the patient.
Hang a curtain over restricted doors and place a familiar piece of furniture in front of it to block access completely.
Use a smart mattress pad that tracks sleep patterns and alerts caregivers to prolonged periods of wakefulness or restlessness.
Hire a professional companion or caregiver to provide supervision and engagement during times when family members are unavailable.
Secure tall furniture like bookcases and dressers to the wall to prevent them from tipping over if the patient uses them for support.
Ensure all exterior doors have solid core construction to prevent the patient from breaking through them.
Lock away all alcohol and mouthwash, as patients may consume them inappropriately or in dangerous quantities.
Conduct street plays (Nukkad Natak) in local neighborhoods to explain dementia simply.
Create short WhatsApp forward videos debunking common myths about dementia.
Start a 'Memory Cafe' concept in local tea stalls where families can gather without judgment.
Set up an SMS alert system for neighborhoods when a dementia patient goes missing.
Develop a centralized registry for dementia patients to track prevalence and allocate resources.
Produce a critically acclaimed regional movie focusing on the emotional journey of a patient.
Publish an anthology of poems and stories written by dementia patients and caregivers.
Mandate that all retirement homes have a specialized memory care unit.
Create a specialized police task force trained in locating and assisting missing seniors.
Develop a gamified cognitive assessment tool that can be administered via a smartphone.
